

BARTEK Ingredients Inc.

A Taste for Today and Tomorrow

GENETICALLY MODIFIED ORGANISM (GMO) COMPLIANCE

Bartek Ingredients Inc. certifies that no Genetically Modified raw materials are used in the production of **DL-Malic Acid and Fumaric Acid**, at our plant in Stoney Creek, Ontario, Canada.

Both DL-Malic Acid and Fumaric Acid are synthesized from Maleic Anhydride and purified water. The Maleic Anhydride that is used is produced on site and is derived from n-Butane gas.

None of the above products have been genetically modified. These products are therefore considered in compliance with both Regulation (EC) No 1829/2003 and Regulation (EC) No 1830/2003.
